SLEEK
& SEXY

Zeppelin
unbox your music

New
Zeppelinmini

The iPod docking station your music has been waiting for!

Crafted with care by the same people that brought the B&W Nautilus to audiophiles around the world, the B&W Zeppelin iPhone speaker dock delivers a high-fidelity experience with serious style. The Zeppelin's two alloy-dome tweeters, two mid-range woofers, and 5-inch subwoofer are nestled in a solid cabinet trimmed in classy stainless steel. That makes for a distortion-free listening experience that also delivers on the promise of eye-candy. In one word: sexy. It's sleek, just like your iPhone. Zeppelin Mini, you get everything you love about Zeppelin in a streamlined, compact package. Starting @ \$395.00

On Display

Good bang for the buck

If you're looking for a large Plasma screen and don't want to spend a ton, you should definitely consider the LG 60PS80 Plasma HDTV. LG's new frameless design give you the touch of class you deserve. The 60-inch plasma set supports full 1080p HD signals as well as standard definition television and everything in between. You'll be impressed with the 60PS80's ability to display images and video in great quality, regardless of the definition settings. A major factor of this Plasma's image quality is its 600 Hz smooth motion picture processing and super bright panel technology, a feature that comes standard on all PS80 series flat screen televisions.

Mitsubishi's Unisen series features a fully integrated 16-speaker Dolby Digital 5.1 channel surround system. Each new premium flat panel TV delivers the optimal blend of superior picture performance with unparalleled immersive sound technology. Unisen will allow consumers to enjoy concert quality sound in their homes, without the need for separate home theater components. **Take advantage of NO down payment, NO payments and NO interest till 2011!**

Universal Remote Control

offers a wide variety of models for virtually any application.

The **MX-880** features an attractive two-inch color lcd display and a rechargeable lithium ion battery. A built-in motion sensor detects movement and activates its backlighting.

Ideal for homes with one or more A/V systems, the **MX-980** is as intuitive for installers to program as it is for users to operate. Its unique synergies automate and simplify operation of even the most complex home systems.

The **MX-3000** offers the largest possible usable screen area for your labels. By assigning the important operational buttons to the natural resting place of your thumbs, the MX-3000 achieves a new standard in use.

Starting @ \$249.00

What Do You Want To Control

Elan N800 4 inch Handheld Controller

The N800 gives you reliable wireless control of all your Elan entertainment and whole-house systems, plus direct access to the Internet, in a sleek hand-held package that makes it the ideal go-anywhere, do-anything controller for the entire house.

**Your Home.
Your World.
In the Palm of
Your Hand**

Starting @ \$1475.00

Coollest Controller!

RadioRA 2 Total Home Light Control

RadioRA 2 is a wireless light control system that provides convenient and intuitive control of lights, shades, audio-visual devices, and temperature in a single room or throughout a whole home. It installs easily, programs quickly, and operates reliably thanks to Clear Connect™ RF Technology. Ideal for new construction or retrofit, single-room applications.

- **add convenience to your daily life.** With a light control system, you can turn your lights on and adjust your shades to the specific level you want, in a particular room, or throughout your house—at the touch of a button. You'll have the right light when you need it, where you want it.

- **create just the right mood or ambiance** for any activity—and do it with stylish products that will complement your home's décor. You'll find there is more to lighting than simply "on" and "off."

- **add "wow" to your home.** With RadioRA 2, you can control lights and shades from wall-mounted, tabletop, or handheld controls, in a specific room—or remotely from another room—or even outside your home. You'll be able to create lighting scenes for a specific activity, such as entertaining friends or watching a movie in your media room.

- **save energy.** When you dim a standard halogen or incandescent light bulb by 25%, you'll save 20% energy. Dim more, and you'll save even more. You'll also extend the life of your light bulbs. Shades help save energy, too.

Packages starting as low as \$995.00
